

WELCOME NEW PATIENTS

Thank you for selecting our office to serve your dental health needs. We are committed to caring for you and to helping you achieve the finest dental health care possible. We welcome the opportunity to work with you to create a great smile and to help you maintain healthy teeth that will last a lifetime.

We ask that you review this information to become familiar with our office.

OUR STAFF

Our well trained staff works as a team to help you in any way we can. Our goal is to make your visits with us so pleasant that you will “want” to come back to visit us. Please feel free to ask us any questions or for a tour of our office.

OUR OFFICE

Our office is equipped with the latest digital technology. Our x-rays are taken with a minimum amount of exposure to radiation. We adhere to the highest standards of infection control in accordance with CDC and OSHA guidelines. All of our equipment is sterilized prior to treating each patient. Our priority is to provide state of the art dental treatment while maintaining strict operating protocol.

TREATMENT

Our desire is to give our patients the best dental treatment available. While the very best is what we want to give you, there are usually alternative treatments for those who need or want them. The dentist and staff will work with you to make sure that you are getting what you want. For example, we only provide resin (tooth colored) fillings. If you were to want the alternative, which is a silver filling, we would have to make a referral to another office.

IN CASE OF EMERGENCY

There is time in our daily schedule for patients who need emergency attention. Please call early in the day so we can take care of your emergency need as soon as possible. Should you have an emergency after hours, we can be reached by calling the office at 670-1966. Our voice mail will enable you to contact Dr. Yoon directly.
